**Public Health**

CITY OF PHILADELPHIA

## Know the Symptoms of Hepatitis C...

Fever

Nausea or Vomiting

Yellowing of Skin  
or Eyes (Jaundice)

Abdominal Pain

Dark Urine (Pee)

Always Tired

Grey Feces (Poop)

## Know the Facts!

**There are NO restrictions on who can be treated**

You can & should be treated, even if you are using or have been reinfected

**For most people, treatment means:**

1-3 pills a day by mouth

8-12 weeks

Few or no side effects

**Insurance covers the cost of hepatitis C treatment**

Talk more with your doctor or a social worker about how to get covered!
